**NEW VALUES OF UNIVERSITY LIBRARY IN THE DIGITAL AGE - Dr.Cristina
ALBU, Librarian Carmen PREDESCU, Librarian Gabriela VASILE**

ABSTRACT: *Today we assist at a transition from the traditional library to a digital library. There have been numerous changes in the way that libraries organize information and how users seek, gain access to, and obtain library materials. These changes have modified many traditional library services, introduced new terms, and created new library uses. In the Information Age, is needed a digital library because the emergence of digital technology and computer networks has provided a means whereby information can be stored, retrieved, disseminated and duplicated in a fast and efficient manner. Starting from these aspects the paper focuses on evolving of digital library and development of information technology, on the purpose, challenge and new redesigning of library and librarian in the digital library environment.*
